

Step by step for Installing Flash Player Plugin

Here we provide you with a step by step guide to downloading the Flash Player.

First read through the steps below which take you through the process. Then visit the [Flash Player](#) Download Center.

- **Instructions for Windows and Internet Explorer users**
- **Go to the Flash Players Download Center.**
- **Automatic Detection**
The Macromedia website will try to automatically detect your browser and system, and select the relevant download. Check the details underneath the 'Install Now' button. Then click on the 'Install Now' button. If the details are not correct, see the instructions below on manual set-up.
- **Security Warning**
A Security box may appear saying, "Do you want to install and run "Macromedia Flash Player". Click 'Yes'.
- **Wait for the file to finish downloading**
Your download manager will appear, giving you details of download file size and time left for completion. The process may take a little while depending on your modem size and demands on the Macromedia servers.
- **Installation**
When you see the Macromedia Flash Player 6 logo and text, your installation was successful
